Carrier Japan Corporation

Carrier Japan to Unveil Latest HVAC Technologies at HVAC&R JAPAN 2026
Innovative Solutions for Energy Efficiency and a Sustainable Future

TOKYO, Dec. 16, 2025 – [Carrier Japan Corporation](#) is gearing up for an impactful presence at [HVAC&R JAPAN 2026](#), the premier biennial HVAC industry event at Tokyo Big Sight, Jan 27 - 30. Carrier Japan is a part of Carrier Global Corporation (NYSE: CARR), global leader in intelligent climate and energy solutions.

Carrier Japan will showcase its latest products and services designed to address today's most pressing societal challenges. These include solutions for data center operations, advanced after-sales services, compliance with the revised Building Energy Efficiency Act—which mandates BEI (Building Energy Index) standards for new buildings—along with technologies for heat mitigation and strategies to address workforce challenges.

As demand for greater energy efficiency and reduced environmental impact continues to rise, Carrier Japan is advancing its engineer-to-order (ETO) business model—delivering customized, made-to-order solutions that address the diverse needs of customers in Japan and around the world. At our booth, visitors will discover Carrier's leading data center cooling solutions tailored for the Japanese market, the USX-FIT™ air-cooled modular chiller, mobile air-conditioning system, and the R32 VRF Super Multi™ series. The showcase will also feature solutions compliant with national energy-saving and environmental standards such as BEI, along with remote monitoring systems powered by the latest digital connectivity—demonstrating Carrier's commitment to supporting a sustainable future for society.

Carrier Japan will host a special seminar delivering insights on the latest industry trends, real-world case studies and next-generation solutions powered by AI and IoT. The seminar will feature distinguished guest speakers from across industries, including Mr. Daisuke Kurita, Executive Vice President of Tokyo Verdy Co., Ltd.; Mr. Yasunori Yamashita, Chairman of Ricoh Co., Ltd.; and Mr. Hideaki Fujimaki, CEO of Spiral Group Dot Biz Co., Ltd. and Steering Committee Member of the Japan Data Center Council.

The booth design is created under Carrier's purpose of "Enhancing the Lives We Live and the World We Share" and Carrier Japan's theme for this event—"Carrier Solutions – All Around Us"—will be brought to life through a concept that transforms the entire booth into a cityscape. Visitors will be able to stroll through the space, experiencing firsthand how Carrier's solutions seamlessly connect with societal needs and contribute to a better future.
