

No	Model Name	Overall efficiency (η)	Measurement category	Efficiency category Static or Total	Efficiency grade at optimum energy efficiency point		Variable Speed Drive (NO, Integrated, Installed)	Year of manufacture	Manufacture's name or trade mark	Commercial number	Place of manufacture.	Product's model number	Rated moter power input(s) at optimum energy efficiency	Flow rate(s) at optimum energy efficiency	Pressure(s) at optimum energy efficiency	Rotations per minute at optimum energy efficiency point	Specific ratio	Information relevant for facilitating disassembly, recycling or disposal at the end of lide.	Information relevant to minimise impact on the environment and ensure optimal life expectancy as regards installation, use and maintenance of the fan.	Description of additional items used when determining the fan efficiency , such as ducts, that are not described in the measurement category and not supplied with the fan.	No
					First tier (2013/1)	Second tier (2015/1)							kW	m3/s	Pa	rpm
